

IUCLID 6, SPC EDITOR AND R4BP 3 FOR BIOCIDES

Preparing dossiers for biocidal products

This course aims to assist you in preparing IUCLID dossiers and Summary Product Characteristic (SPC) reports for biocidal products and biocidal product families under the BPR.

The course is based on the practical aspects of IUCLID 6, the SPC Editor and R4BP 3 (Register for Biocidal Products), to ensure that the training will be applicable for your day-to-day work challenges with these formats and platforms.

At the course, you will receive expert advice and gain practical insight into the use of IUCLID, the SPC Editor and R4BP 3 for authorisation of biocidal products and biocidal product families.

Upon completion of the course, you will be able to work in IUCLID 6, the SPC Editor and R4BP 3 for your future biocidal product authorisations.

COURSE TOPICS

- IUCLID components under Tasks, Inventories and Tools, plus administration
- How to work in parallel on IUCLID and ECHA accounts
- Exporting and importing information to a IUCLID dataset
- Creating a new IUCLID dataset (substance and product/mixture)
- Creating end-point study records and end-point summaries
- Creating a IUCLID dossier from a IUCLID product dataset
- IUCLID dossier submission to ECHA via R4BP 3
- How to work in the SPC Editor for products and families
- How to work in the R4BP 3 platform

TARGET GROUP AND PREREQUISITES

The course is relevant for everybody who is or will be working with IUCLID.

At the course, please bring your own laptop with IUCLID 6 installed. Prior to the course you will receive instructions on how to download IUCLID 6.

THE ACADEMY BY DHI

THE ACADEMY offers a palette of courses and capacity building packages designed to fit your needs and challenges. We offer standard and/or tailored training - face-2-face as well as online.

MIKE Powered by DHI courses focus on practical skills, hands-on exercises and teaching you how to get the most out of your software. These courses also enable you to understand the power of the MIKE tools for building decision support systems.

Thematic courses allow you to apply concepts, applications and decision support principles to the entire business process within current areas: aquaculture and agriculture, energy, climate change, flooding, coast and marine, surface and groundwater, urban water, industry, environment and ecosystems, product safety and environmental risk, etc.

Our trainers are experienced professionals, many of whom are recognised international experts in their fields. The use of highly skilled trainers guarantees the quality of THE ACADEMY courses.
