

## IUCLID 6 FOR REACH REGISTRATIONS

### Preparing dossiers for REACH authorisation

This one-day IUCLID 6 training course aims to assist you in preparing and/or editing REACH registration dossiers. The course is based on the practical aspects of IUCLID 6 to ensure that the outcome of the course will be applicable for your day-to-day work challenges with IUCLID 6.

IUCLID 6 plays a central role in the IT environments of all organisations that manage scientific data on chemicals in a regulatory context, for example under the OECD HPV, the EU Biocidal Products Regulation or the EU REACH Regulation.

At the course you will receive expert advice on how to use IUCLID 6 for REACH registration dossiers. We will also guide you through IUCLID 6 and the process of creating a dossier step-by-step, such as Lead or Company Specific Dossiers.

Upon completion of the course you will be able to use IUCLID 6 for your future REACH registration dossiers.

#### COURSE TOPICS

- Introduction to IUCLID 6
- IUCLID 6 components under Tasks, Inventories and Tools
- Exporting and importing information to/from a IUCLID 6 dataset
- Creating a new IUCLID 6 dataset (substance and product/mixture)
- Creating end-point study records and end-point summaries
- Creating a IUCLID 6 dossier from a IUCLID 6 dataset
- IUCLID 6 dossier submission to ECHA via REACH IT

#### TARGET GROUP AND PREREQUISITES

The course is relevant for everybody who is or will be working with IUCLID 6.

At the course, please bring your own laptop with IUCLID 6 installed. Prior to the course you will receive instructions on how to download IUCLID 6.

#### THE ACADEMY BY DHI

THE ACADEMY offers a palette of courses and capacity building packages designed to fit your needs and challenges. We offer standard and/or tailored training - face-2-face as well as online.

**MIKE Powered by DHI** courses focus on practical skills, hands-on exercises and teaching you how to get the most out of your software. These courses also enable you to understand the power of the MIKE tools for building decision support systems.

**Thematic courses** allow you to apply concepts, applications and decision support principles to the entire business process within current areas: aquaculture and agriculture, energy, climate change, flooding, coast and marine, surface and groundwater, urban water, industry, environment and ecosystems, product safety and environmental risk, etc.

**Our trainers** are experienced professionals, many of whom are recognised international experts in their fields. The use of highly skilled trainers guarantees the quality of THE ACADEMY courses.
